Honoring Richard McDonald's Legacy of Leadership

The Richard McDonald Leadership Institute has been established to provide leadership training for cattle industry organizations throughout the country.

At Richard's recommendation, the program will include a comprehensive curriculum covering the basics of volunteer and staff leadership for cattle associations.

Training modules were outlined by Richard and will be developed and administered by the National Cattlemen's Beef Association. The endowment fund will be managed through the Amarillo Area Foundation as The Richard McDonald Leadership Institute Donor Advised Fund.

Private funding to establish the Institute will be provided by individuals and corporations that wish to honor the positive impact Richard had during his 32-year career in the cattle industry. An endowment of \$500,000 will ensure funding to continue the program into the future.
